*Last Modified 29<sup>th</sup> June 2021*

## Highlights of Changes in 5.0.30.166

### ID: 9651 Pos User Maintenance: Support “Copy From” and Copy To”.

When your client have a lot of outlet and staff, instead of open new every time you want to create a new set of userID, you can just copy from existing user or existing user copy to new userID.

To set, go to **Point Of Sales > Maintenance > Pos User Maintenance > New/Edit**

The screenshot shows the 'Edit POS User' window. A red box highlights the 'Copy' dropdown menu, which has 'Copy From' and 'Copy To' options. The 'Copy From' option is selected, and a sub-dialog box is open for selecting a user ID. The sub-dialog box has a 'Select a User ID:' label, a dropdown menu showing 'CASHIER', and 'OK' and 'Cancel' buttons. The main window contains the following fields:

- User ID :
- Name : Administrator
- Phone No. :
- Password : \*\*\*\*\*
- Confirm Password : \*\*\*\*\*
- User Group : ADMINS
- Outlet : HQ
- Default Promoter :
- UI Language :
- Note :

There are also checkboxes for 'Active' and 'Is Cashier'. At the bottom of the window, there are buttons for 'Manage Fingerprint', 'OK', and 'Cancel'.
